ESADE

“Learning a language is like starting out on an incredible journey in two different directions simultaneously. In one direction, we discover the values and customs of the people who speak that language, and their different ways of interpreting the world. Our journey in the other direction is no less captivating. Here we embark on a voyage of reflection on our learning processes, our beliefs as students, our learning strategies and our abilities. This exciting adventure requires the very best guides and, in this respect, we undoubtedly have the very best. Join us and we’ll re-discover the world together.”

Director of the Spanish Department

ESADE

Executive Language Center

ESADE Language School was founded over 40 years ago. This small school gradually evolved in terms of the number of languages it offered, as well as its student and teacher numbers, to become what is today the Executive Language Center. One thing that has not changed is its commitment to high quality education, with rigorous standards and a very high level of professionalism. These were the principles upon which this centre was founded, and they are still our priority today.

Originally created as a small section within the Language School, the Spanish Department grew over time – both in range of programmes as well as faculty – to become a benchmark for teaching Spanish as a second and foreign language.

The Spanish Department was set up 32 years ago, in 1978. Originally created as a small section within the Language School, it grew over time – both in range of programmes as well as faculty – to become a benchmark for teaching Spanish as a second and foreign language. The broad training base of the Department's teaching staff has left its mark on the courses they teach. Some have worked on reference books for Spanish teachers, such as the *Diccionario de términos clave de ELE*, published by the Cervantes Institute's Virtual Centre, and regularly participate in forums, seminars and conferences on teacher training. The Business Spanish Seminar, one of the teacher training programmes offered since 1995 in collaboration with the Cervantes Institute, is recognised by Spanish teaching professionals for its variety and up-to-date contents, in addition to the experience and quality of its speakers.

ESADE-Executive Language Center is in Building 3 on the ESADE-Pedralbes Campus. These first-rate facilities offer air-conditioned classrooms equipped with the latest technology, interactive learning areas, Internet access, computer room, learning centre, library, bank, travel agency, cafeteria and restaurant, in addition to a number of terraces with breathtaking views over the city.

Five key steps of the ESADE-ELC method

At ESADE Executive Language Center, we are aware that learning a language involves time, effort and money. As a result, we make every effort to ensure that all our students achieve their goals. This can be seen in the '5 key steps of the ESADE-ELC method'.

1 Placement test and interview

The first step of our method involves a placement test, and in some cases a personal interview, to identify students' goals and language needs, and to identify their current level. This step is crucial and, to a large extent, students' satisfaction levels depend on getting this right.

2 Interesting courses

As the result of over 40 years' experience in language teaching, we offer a wide variety of courses so that you can choose the one that best fits your objectives, schedule, and personal and professional life.

3 Balanced groups

Amongst other things, experience has taught us that it is essential for groups to be balanced if students are to achieve their objectives. This may include interests, age groups, lifestyles and language levels.

4 The best teachers

Having the best language teachers ensures that you will have the best travelling companions on your learning adventure. At ESADE-ELC we have proficient and highly qualified professionals with extensive experience in teaching, developing educational materials and teacher training.

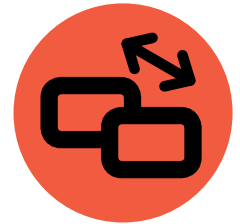

5 Facilities and resources

In addition to the learning environment itself, technical and teaching resources are a very important part of the learning process. The ESADE-ELC building has been custom designed with language classes in mind and is equipped to make language learning fun, effective and rewarding.

Getting into the language as quickly as possible

Intensive courses are an effective way of learning Spanish and improving language fluency in the long term. We focus on ensuring that our students rapidly acquire the language skills they need in a Spanish-speaking setting. Classes are both enjoyable and practical, helping students pick up the language right from the first day. The cultural programme included in the course extends students' knowledge of the language and provides them with the historical, social, artistic and political background they need to understand Spanish.

“Studying Spanish at ESADE has allowed me to discover and enjoy the city of Barcelona and settle into a different, more relaxed way of life. The teachers deliver the course material in a way that’s easy to understand, even for people who haven’t studied a foreign language before. The course also gives students the chance to make new friends and take part in loads of cultural activities.”

Intensives

Language classes focus on students and their needs.

Students' language needs and progress are assessed on an individual basis. The course enhances students' verbal and non-verbal communication skills. Apart from conversation skills, classes also cover: listening comprehension; reading comprehension; writing skills; and the differences between formal and informal registers. Group sizes are carefully chosen to maximise practice and student participation, ensuring active learning that goes far beyond simply learning grammar and spelling rules: Students share life experiences and information in the process of discovering Barcelona. The process of improving students' Spanish is enhanced by a multi-cultural climate and a cross-fertilisation of ideas. English/Spanish exchanges are also organised with native Spanish speakers of different ages and professional profiles from among those studying English at ESADE (when available).

The Cultural Programme includes

- Lectures on Spain's best-known artists (Picasso, Dalí, Miró); Art Nouveau/Modernisme architecture (Gaudí); Spanish literature (Lorca, Cervantes,...); Latin American literature (Magic Realism authors); history of Barcelona, Catalonia, Spain and Latin America; Spanish society (celebrities, the media, politics, customs and cultural differences arising in day-to-day contact with Spanish speakers).
- Spanish and Latin American films, which provide an excellent tool for improving students' listening comprehension and understanding the cultural situation of the country where they were made.
- Workshops (dance, theatrical improvisation, etc.)
- Two cultural visits to places of interest in and around Barcelona.

The Cultural Programme is a key part of intensive courses and reflects our belief that students cannot become fluent in a language without understanding its underlying culture. Cultural activities help students progress in their language learning and understand how Spanish, Catalan and Latin American people think. These activities address art, history and social issues, with a special focus on Barcelona.

Designed to meet your specific needs

Our range of courses is rounded off by the possibility of customised classes designed to meet individual or business needs. A firm or institution requiring In-Company Language Training for its staff, or wishing to send a group of employees to our School, will find ESADE's customised option an excellent choice.

"I'm really enjoying the Spanish classes at ESADE because they're flexible and adapt perfectly to my learning needs. My teachers have a lot of teaching experience and are extremely professional. I opted to take Spanish classes at ESADE due to the school's international reputation and I'd recommend ESADE to colleagues and any other professionals thinking about studying Spanish in Barcelona."

Customised

Over the last few years, there has been a spectacular rise in customised courses. Individuals and companies are increasingly opting for full customisation to ensure that clear objectives are set and achieved.

• Individual courses

These are usually one-to-one courses in which students require much more intensive classes.

• In-Company courses

We collaborate with companies to develop a specific learning programme for one or more students. The courses can be delivered either in the company or at ESADE.

• Institutions

In addition to other higher education centres, we run joint programmes with the European Business School (Germany). Students from these institutions come to Barcelona to improve their Spanish in standard or customised courses.

Increase your fluency in Business Spanish

This unique product combines language and business communication skills. These modules have been devised for students who already have some knowledge of Spanish and who would like to improve their professional language skills to be able to live and work in Spain. The modules are focused on four main aspects: providing in-depth teaching on understanding cultural differences; developing negotiating skills; improving presentations and business meetings in Spanish; orienting students in their job search in Spain.

“Thanks to the Business Spanish Modules I’m learning to work in a Spanish-speaking environment. We’re studying the peculiarities of how things are done in a work situation in Spain, as well as going over specific grammar points. After the course I’ll be more confident about using the language in a professional context, and I’ll be well qualified to start work in a professional Spanish-speaking environment.”

Preparation Course and Exam

The Spanish language was given an enormous international boost with the founding of the Cervantes Institute. The only official institute of its kind in Spain, this institute is dedicated to promoting the Spanish language. The Cervantes Institute handles all examinations leading to Diplomas in Spanish as a Foreign Language (DELE), the official qualification accrediting students' degree of competence and proficiency in Spanish, which is awarded by the Cervantes Institute on behalf of the Spanish Ministry of Education and Science. ESADE-Executive Language Center is recognised as an official Examining Centre for the Diploma in Spanish as a Foreign Language (DELE).

“The modern facilities are fantastic, and the students are highly motivated. However, it’s the teachers who really make this programme so outstanding: They each have a different, but effective, way of teaching. The DELE Preparation Course was also excellent. The instruction was superb, and I appreciated being able to prepare for the exam where the actual exam was going to be held. In sum, it really made my learning experience the best it could be.”

Marina Kazuyo Fukushima (Japan)
International Tax Consultant

DELE Exam

There are two essential points to remember

if you want to do well in any exam: showing your knowledge of the skills being assessed and being familiar with the exam tasks and structure. These guiding objectives have been used in designing the course. Students get exam practice using different types of written and oral exams. Candidates can participate in the Cultural Programme during the course.

This practical course offers activities such as:

- Improving accent, pronunciation, spelling and punctuation
- Practising grammar
- Writing a variety of texts
- Developing aural comprehension

How to get here

and what you will find

ESADE is in the attractive residential area of Pedralbes. If you are coming by car, you can park free in the surrounding streets. If you are using public transport, you shouldn't have any problems finding ESADE as it is on quite a few bus routes. In addition, public transport in Barcelona is fast, easy to use and very safe. However, for your first couple of trips it may be best to take a taxi.

ESADE-Executive Language Center is in ESADE Building 3, Av. Esplugues 92-96.

This building houses:

- Executive Language Center Programmes
- MBA Programmes
- Executive Education Programmes
- Services: bank, travel agency, cafeteria and restaurant
- Resources: learning centre and library, computer room, Executive Language Center Registrar's Office

Car

The most convenient route to ESADE from the centre of Barcelona is along Av. Diagonal, the city's main avenue. When you reach Plaza Pius XII, turn right on to Av. Pedralbes. Follow Av. Pedralbes to the top of the hill where you will come to the Creu de Pedralbes crossroads. Turning left, you will find yourself at the intersection of Av. Esplugues (on the left) and Av. Pearson (on the right). Keep to the left and carry on along Av. Esplugues until you come to ESADE at No. 90-92 (it is a large pink-coloured building with columns).

Metro

The closest metro/train stop is Passeig Reina Elisenda, on the U6 Line. You can then either walk the rest of the way (15 min.) or take the No. 22, 68 or 75 bus. From the Maria Cristina station (on the Green Line), you can walk to ESADE (approx. 20 min.) or take the No. 63 or 78 bus.

Bus

Buses 22, 63, 68, 75 and 78 have stops in front of ESADE.

On foot or by bicycle

Many students who live in the neighbourhoods close to ESADE choose to walk or cycle to class. It's about a 20-30 minute walk from the Tres Torres/Sarrià neighbourhood.

From the Airport

The easiest and most direct way to get to ESADE is by taxi. Journey time is 15-20 minutes and costs around €25. Tell the taxi driver to take the Ronda de Dalt Exit (Exit 10).
