

Hi Berliners!

My name is Maria Pericas and I graduated last year from the International Section of the BBA at ESADE (2012-2016), after which I moved to Berlin to work as Business Analyst in an internal consulting team in Wayfair, a Tech company that sells furniture online.

The Berlin Chapter has accompanied me in my journey in Germany since the week I arrived from Barcelona, giving me countless chances to meet new people, engage in networking events and learn from experts like Claudio Ceper, for instance. Which is the reason why I am now very excited to be part of the board! I hope I can give back to the Chapter and contribute to the already great team that forms it in organizing events that you all find valuable.

For all of those who are new to the chapter: Herzlich Willkommen!

For those of you who have been in Berlin for a while: I would kindly encourage you to reach out to any of us if you have any feedback on how to make this chapter even better!

Thank you for welcoming me on-board,
Maria
