

## Online Professional Guidance Service

The **ESADE Alumni Professional Careers Service** has launched the **Online Professional Guidance Service**, through which you can arrange a personalised professional guidance meeting – by Skype or telephone – with human resources and outplacement experts, in which you can deal with different aspects:

- Career analysis
- Clarification of professional goals
- Advice on career planning
- Validation of your job search strategy
- Presentation of tools: writing a CV, networking, personal branding, etc.
- Interview preparation

What's more, in the next few weeks we will launch the **Online Mentoring Programme** to offer you support if you are between jobs or in the middle of a career change.

We hope these services will help your career develop and that we can continue sharing experiences and growing together.
