BEGINNERS GOLF DAY

The Golf clinic is aimed at participants with little or no experience in the game of golf. Participants will be divided into small groups according to their level of knowledge of the game in order to optimize the teaching.

The objective of the activity is for participants to have their golfing baptism, to acquire knowledge of the basic aspects of the game: for those participants who already have a base, it will be to polish up their knowledge so that they can go out on the course.

The clinic will cover aspects of the swing technique, the short game and the putt, as well as explaining the basic rules of etiquette on the golf course. To finish, there will be an exciting putting contest amongst all the participants of the clinic.

The Organisation will provide golf clubs for participants who do not have their own material.

Comfortable clothing and footwear is recommended for the clinic.

Once the clinic is finished, all participants will be able to enjoy a picnic, courtesy of Rodilla, on the terrace of the club house.

Registration open until the 4th of May.
